

ABISHEK R V

AI & ML Engineering Student | AI Developer & Full Stack Engineer | Founder of ABI

Krishnagiri, Tamil Nadu, India - 635121 | +91 9840889119 | abhishekvadivelrv@gmail.com | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Ambitious and dedicated Second-Year B.E. Artificial Intelligence and Machine Learning student with robust technical expertise in full-stack development, Python, machine learning fundamentals, and intelligent system design. Proven entrepreneurial mindset as the Founder of ABI, delivering scalable web applications and automated digital solutions for startups and organizations. Eager to leverage strong problem-solving capabilities and modern tech stacks to contribute as an AI/Software Developer intern in dynamic, high-impact teams.

TECHNICAL SKILLS

Programming:	Python, Java, C, JavaScript, SQL, HTML5, CSS3, Tailwind CSS
AI & Data Science:	Machine Learning Fundamentals, Data Analysis, Pandas, NumPy, Matplotlib, NLP Basics, Computer Vision, AI Application Development
Backend & DB:	Django, Flask, REST APIs, MySQL, Database Management Systems, Responsive Web Design
Tools & Systems:	Git, GitHub, VS Code, Linux / Windows Environments, Agile Workflows

KEY PROJECTS & INNOVATION

EdgeDriveAI – Real-Time Driver Monitoring & Predictive Safety System

AI Developer

- Designed and engineered an advanced computer vision-based vehicle safety platform focused on driver behavior analysis and real-time hazard detection.
- Integrated intelligent decision support algorithms to trigger instant predictive safety alerts, minimizing road accident risks.
- Utilized Python, OpenCV concepts, and machine learning logic for real-time video stream processing and behavioral monitoring.

Student Management System (SMS) – Enterprise Portal

Full Stack Developer

- Architected a comprehensive, enterprise-grade educational administration platform to manage student profiles, tracking, attendance, and performance analytics.
- Engineered robust backend logic using Django and SQL with secure authentication, multi-criteria search filtering, and responsive UI interfaces via Tailwind CSS.
- Streamlined administrative workflows, achieving high performance and clean modular architecture suitable for academic institutions.

Intelligent Movie Recommendation Platform

Python Developer

- Developed a personalized movie recommendation engine leveraging machine learning algorithms and collaborative filtering models.
- Built a lightweight Flask backend paired with an interactive frontend to deliver fast, tailored recommendations based on user preferences.

ENTREPRENEURIAL EXPERIENCE

Founder & Lead Developer | ABI (Technology Solutions)

2025 – Present

- Founded and scaled a freelance technology initiative providing custom website development, AI integration, and automated digital systems.
- Successfully delivered tailored technical solutions and digital platforms for startups, small businesses, educational institutions, and e-commerce clients.
- Managed end-to-end project lifecycles from client requirement analysis and system architecture design to deployment and maintenance.

EDUCATION

Bachelor of Engineering (B.E.) in Artificial Intelligence and Machine Learning

2024 – 2028 (Expected)

VSB Engineering College, Karur, Tamil Nadu, India | Current CGPA: Strong Academic Standing

Higher Secondary Education (HSC)

Completed

Shri Maruthi Matric Hr. Sec. School, Krishnagiri, Tamil Nadu

CORE STRENGTHS & SOFT SKILLS

Core Strengths:	Strong AI/ML Foundations, Full-Stack Architecture, Entrepreneurial Drive, UI/UX Design Sensibility
Soft Skills:	Advanced Problem Solving, Analytical Thinking, Rapid Self-Learning, Team Collaboration, Project Management
